

INFORMATION FOR POSTDOCTORAL RESEARCH ASSOCIATE APPLICANTS

Individuals interested in being considered for postdoctoral research appointments should either mail their application material to the address in the contact information or send the complete application by e-mail. The application packet should include:

- A cover letter stating:
 - educational and research background
 - objectives for the postdoctoral stay
 - long term career interests
 - availability date
- A curriculum vita including:
 - publications
 - awards
 - graduate level courses taken
 - names and contact information for three recommenders
- A brief description (2-3 pages) of graduate research projects

An acknowledgement of receipt of the application will be sent immediately and if a position is available, additional letters and information will be requested at that time.
